

Kramden Tech Scholars

Requirements:

- Must be a student in grades 3-12
- Must be nominated by an educator who works with the student in a academic setting
- The student must be hard-working or academically motivated
- The student must not have access to a working computer in their home

Program Details:

The computer award day will take place at the Kramden office during one of our monthly events unless other arrangements are made with Kramden staff. Kramden does not deliver computers. An award letter will be sent to the nominator when the student is designated for an award day (typical wait time = 1-2 months). The default computer award is a free refurbished desktop with an open source operating system. Only high school students qualify for laptops and \$100 is required for all laptops at time of pickup. Technical support is provided for desktop computers as long as the student is still in school and laptops receive one year of tech support.
