

## Share your expertise and passion!

### Partner with Kramden's experienced staff to create a workshop

You can contribute to our ongoing **Tech Topics workshop series** with a class designed around your interests – and your busy schedule. We will work with you to identify a topic you're passionate about. Bring us your ideas or dive into a category below. Then our staff will provide support to make your workshop a reality, including logistics, classroom space, equipment, and marketing. Scheduling is based on your availability. Because of our broad community reach, we can choose the most appropriate audience for your materials – adults, youth, beginners, power users, etc. Workshops should emphasize hands-on learning.

Contact Marshall Burkes, Kramden's Education Manager, at [mburkes@kramden.org](mailto:mburkes@kramden.org) or (919) 293-1133 ext 1006 for more information. We look forward to working with you!

**Need inspiration?** Here are some topic areas that have been requested by our participants:

- Programming
- App Development
- Web site design and creation
- Productivity programs
- Digital Media
- Social Media
- Maker Projects and Electronics
- Computer Troubleshooting and Maintenance
- Security and Privacy
- Cloud Services and Networking
- Livestreaming
- Practical Legal Issues (copyright, licensing)

### Volunteers have created workshops such as:

Introduction to Arduino  
Microsoft Excel  
Home Networking and Security  
3D Modeling and Animation  
Working with IT Recruiters  
Coding in Python

Social Media and Your Personal Brand  
Digital Photo Editing  
Sound Editing  
Bitcoin Basics  
Linux Command Line  
Stop-Motion Animation
